

Canvas Resources for Faculty

- [Quick Start Guide from the University of Michigan](#): Although the intention is for instructors to proceed sequentially through this guide, the pages can be accessed in any order, so it can also serve as a quick reference.
- [Official Canvas Guide for Instructors](#): This comprehensive guide is a good place to look for answers to specific questions (as opposed to getting an overview of Canvas as a whole).
 - The [Canvas Basics](#) portion of this guide provides quick written overviews of many Canvas features. For those who prefer written descriptions to videos, this might be a good way to learn what is possible in Canvas.
- Training Services Portal: This short [video](#) shows how to access a collection of Canvas training programs. The video highlights the “First Day Ready” program, which gives a comprehensive overview. The “Prepare to Launch” program provides a briefer introduction.
